

## About Symmetry

Since 2003, Symmetry has provided HR & workforce outsourcing, strategy and training to businesses throughout North America. Our team of HR experts understand business; they come from large companies and have worked independently with multiple organizations.

As a division of [RSJ/Swenson LLC](#), we support over 275 businesses and nearly 30,000 client employees. We serve as a “human resources manager” for businesses who are too small to employ a full-time staff member, and as a strategic consultant for businesses who need additional support without having to pay for a full-time employee to conduct such strategy.

Our clients have employees in 38 states, Canada and Mexico.

Our sister company, [Tanzanite Leadership Development](#), provides leadership workshops and coaching for individuals and organizations in a virtual, on location or on site environment. Tanzanite was named one of the Top 10 Leadership Development providers in 2020.

With a full team of administrative and operations professionals, we support our HR advisors and offer an ever expanding group of unique services for our clients.
